## **Country Manor's requirements to work in a marquee**

This is a Magical Style function.

To work in a Marquee and provide a full catering service, we require you to supply a tent 5m x 5m to set up a satellite kitchen which is attached to the main marquee (both Hire Companies know exactly what we require as they supply us many times). We provide all cooking equipment and the gas that we require.

The following are required to cater any marquee functions:

- power source (a generator may need to be considered, please talk to an electrician, as he will be able to advise you). We would need to plug in the following equipment: Oven, hot water urn, deep fryer, beater, refrigerated trailer. All these together will draw a lot of power, so please make sure to have sufficient power to sustain all of our equipment.
- a drinking water source to site (garden hose running to the satellite kitchen is sufficient with a gun on the end is preferable)
- 5 trestle tables for the kitchen area
- 4 trestle tables in the main marquee for your buffet/ tea & coffee station
- please ensure that our vehicles can be driven in and parked beside our kitchen tent
- a light in our tent for the evening

A marquee service charge of \$440 inc. GST is to cover equipment and extra staff required to serve this special style of function.

I have read and understood the marquee requirements and read in conjunction with the terms & conditions.
